If you wish to 'play up' at a higher NTRP level', please submit your request using this easy form:
<https://forms.gle/6tEZgABAtQiVuMrT7>

We will confirm that players will be competitive at the higher level based on their recent playing results. You can support your readiness to play up with results from Flex leagues, Adult leagues and Adult tournaments. We will transfer you to the higher level once verified. If there isn't enough information to support playing up, we will keep you registered at your rating level unless you opt for a Tennislink credit on the form.

If you want to make sure that you will be approved before registering, please fill out the form and let us know in "other notes" so we can let you know when you can register for the higher level holding team.

We started this vetting process for the Summer league and have received great feedback about the quality of matches. Your time is valuable and the league should offer good competition!
